

for Rent to Torino

134 square meters | : 1 | : 3

In Turin, in Corso Regina Margherita, a laboratory used as a mechanical workshop consisting of a large central space currently used as a workshop, on the left hallway with bathroom and storage room, on the right office with changing room.

There is a mechanic in the street and for this reason the place, taking advantage of this synergy, is well suited to being used again for activities similar to the mechanical workshop such as: body repairers, electricians, tire dealers, vintage car mechanics, etc.

The business could therefore benefit from a mechanical colleague in the workshop opposite to create synergy with.

The room could also be suitable for different uses such as: warehouse, craft workshop of various kinds, warehouse/workshop for collecting, etc.
